- Overcoming

# SEBASTIÁN OBALDÍA

## ABOUT ME

I am a student passionate about science, currently pursuing a science-focused high school diploma at the Centro Educativo Guillermo Endara Galimany. I possess a noticeable level of English and strong analytical skills essential for life. I constantly strive to achieve outstanding results and am committed to continuous learning and excellence. I aspire to study physics and bring science to my community.

## RELEVANT EXPERIENCE:

### Participation in Science Olympics:

#### Panamanian Space Sciences Olympiad (2025):

- Passed the pre-selection test along with forty other students nationwide.
- Participated in advanced programs in mathematics, physics, astronomy, astronautics, and related sciences, which contributed to the development of skills by providing real contact with scientific work.

#### National Physics Olympiad (2025):

- Competed against forty students in a national-level academic contest, earning a Bronze Medal

#### National Physics Olympiad (2024):

- Passed the first phase exam along with forty other students nationwide.

#### Panamanian Math Olympiad (2025):

- Participation in several editions of the Olympics over the years.
- Outstanding and satisfactory performance in each of the events.

## Volunteering

### TECHO Panamá (2025):

- I volunteered to help build emergency housing for families in vulnerable communities, contributing to improving their living conditions.
- It was an excellent opportunity to put skills such as teamwork, leadership, and community project management into practice.
